Power Equipment Specialists and Pet Care Experts

For the past 77 years *Chagrin Pet & Garden* has been taking care of the needs and services of the Chagrin Valley Area. Whether you're looking for a treat for your dog, a pot of zinnias, some advice about grass seed, a place to get your lawn mower repaired, or a giant farm tractor, *Chagrin Pet & Garden* is the place to go. Since 1932, *Chagrin Pet* has been supplying customers with top quality feed for just about any animal imaginable – from horses and alpacas to guinea pigs and parrots. In addition, you'll find everything you need for your lawn and garden and some of the coolest power equipment around. But *Chagrin Pet's* best asset is the extensive knowledge they are always more than willing to share. There's a good reason why this family business has become a Chagrin Valley institution. We are honored to have *Chagrin Pet & Garden* as our Big Fix Sponsor and grateful for their support.

MEET OUR COVER PETS

Ella had been severely neglected and was suffering from heartworm when she was brought to Geauga Humane Society's Rescue Village. When she was well, Bebe Ober adopted her and helped her learn to trust again. Soon Bebe was the one who needed some help, and, with her family members scattered across the country, Ella became the primary caregiver. The little dog has been Bebe's constant companion through several difficult moves. Bebe and Ella now care for each other in their new home at an assisted living facility.

Tobin Northrup was heading across the Main Avenue Bridge in heavy traffic and a driving rain storm when he spotted a tiny kitten, apparently thrown from a car, struggling across the highway. Fearing the worst, he got off the freeway and circled back to find her still limping along in the middle of curb lane. He scooped her up and took her to a veterinary clinic where he was told her mangled leg would have to be amputated and asked if he wanted a three-legged cat. Tobin shrugged and showed the vet his missing finger. The deal was sealed, giving the throw-away kitten a new life filled with love and joy. According to Tobin, "B" has returned the favor – many times over.

Fixations: His & Hers

will provide funds to keep the PetFix mobile, low-cost spay/neuter clinic on the road working to end pet overpopulation, the number one cause of suffering and death for companion animals. We will perform our 10,000th surgery this summer, saving many thousands of unwanted animals from lives of pain and working toward the day when every cat and dog born has a loving home.

Thank you for helping us Fix'm Now!
